**Comment!** ...I record 'very ordinary' broadcast TV nearly every day..the kind of thing with a big audience. Documentary is my favourite! I like working fast! And quietly being there when peoples stories unfold...Unfortunately there's not enough good doc 's originated up here, especially in Edinburgh. I've done loads of 16/35mm film, although mainly commercials and short film drama, giving me a chance to justify the purchase of my more exotic bits of kit (HD Recorders, TC Dats & Sound Cart, Fold back), I'm no control freak!... But I do occasionally, like to press the record button myself. ☺
